Last Updated Sunday, 21 February 2010

We praise God for concerning our house of hope children according to His providential care. Although our children have undergone severe persecution and faced many difficulties and problems, yet they have never forsaken the faith they have in Jesus. Constantly they depend upon God and pray for the success of their lives. We never imagined that they would pass with good divisions in their classes. But God has done great things in the children's life. In the school where our children study, many rich children also study. But out of them our house of hope children have come out successful and stood first class in respective of their classes. All our children have obtained good marks. Now the schools are having summer vacations. Again next month the schools will be reopened. So all the students need two sets of school uniforms. And also they are going to new classes. so we need to pay for their admission fee. It is our sincere request to you kindly pray for the school uniforms and for the admission fee.

With thanks, Yours in Christ,
Tarun
